

## **London Cyclist Magazine - Dec/Jan 2007/08**

Flip and Flap, Waddle, Splash and Littlest are penguins who discover humans are at risk of ruining the world. It's left to their teacher, Old Wise, to explain that humans are clever and caring beings, and that - when they work together - they can make amazing things happen. The book encourages kids to take positive, direct action in the fight against climate change.
